The year is 2069 and Jim Murphy thinks he has the world pretty much figured out, as a Knowledge Management Consultant (whatever that is!) muddling through various technology consulting jobs. That is, until his company, SciPop Inc. , assigns him to work a particularly unusual project involving the acquisition of a small backpacking and hiking services business owned by techno-hater Laura Meyers. Welcome to CyberLife: A weeklong initiation into the cybercentric universe of techno-biologic symbiosis which is considered by all to be perfectly organized, functional, efficient, and effective. As long as Jim, Laura and Jasper follow the rules and regulations of SciPop. Which, so far, they...
