Congressional Sales Office, 2003. OCLC Number: (OCoLC)52296760 Subject: Droughts -- Nebraska. Excerpt: . . . 11 pact with Kansas were not met for the first time since the compact was enacted in 1971. This action included approximately 1, 500 ap-propiators, mostly irrigators and storage owners. On the Little Blue River, users junior to November 1, 1968, were also closed twice because of the required compact flows not being met. In the Hat Creek Basin, the Department closed 55 appropria-tions in an effort to satisfy a riparian right for cattle watering. This is the first time that such a closing has been required in the sum-mer months. In summary, of the 12 water basins that we administer in the State, only two have not had severe administration, and that is the Missouri River trips and the Nemahas, both located on the eastern edge. Everything else has been just a record administrative year. If things do not get better - there is not a lot of snowpack up in the Rockies this year and there is not a rainfall in Nebraska - it will be much worse next year. Thank you. The prepared statement of Ms. France can be found in the ap-pendix on page 73. Senator N. Thank you. ELSON Now we have Rebecca Davis, the regional service director for the Risk Management Services Office, and she comes to us from To-peka, Kansas. We appreciate your venturing to Nebraska.
